1990 Manufacturers' Guide Minister's Introduction

Every year the range of goods and services produced in Saskatchewan widens as we work toward greater diversification in manufacturing. As our list of producers and products grows, locating the company you need becomes more difficult and complex.

We have designed this 1990 guide in the belief that Saskatchewan manufacturers merit your consideration. Whether you are buying, selling or investing, this up-to-date, comprehensive listing of our current manufacturers, their products and their expertise will prove a valuable reference tool.

It will help you select manufacturing sources, identify potential customers, locate partners for joint ventures and find suppliers for new products and projects.

Also, should you require additional information on any aspect of the Saskatchewan manufacturing sector's capabilities and potential, I invite you to contact our department.

J. E. Gerich

John Gerich
Associate Minister
Economic Development and Tourism

Explanatory Notes 4

Products Manufactured in Saskatchewan 7

Saskatchewan Manufacturers - Alphabetically 21

- By Product * 159

- By S.I.C. Coding * 215

- By Location * 239

* These listings provide limited information. Full company details can be found in the alphabetical listing beginning on page 21.

Explanatory Notes

Information in this guide was obtained from Saskatchewan manufacturers through questionnaires and telephone interviews. Saskatchewan Economic Development and Tourism gratefully acknowledges their cooperation.

Exporters, for the purpose of this guide, are defined as firms that export to other provinces in Canada as well as to other countries.

S.I.C. = Standard Industrial Classification. This listing identifies the products manufactured in Saskatchewan by major industrial grouping as defined by the 1980 Standard Industrial Classification Manual. The Standard Industrial Classification Manual is a publication of Statistics Canada.

B.O.S.S. = Business Opportunities Sourcing System. This system provides information on companies and products on a Canada-wide basis. It is designed to bring buyers and sellers together in both domestic and international markets. Saskatchewan companies that are identified as B.O.S.S. registrants are included in this national data bank of information and are included in the B.O.S.S. publications and catalogues.

We regret any errors in or omissions from this guide. Kindly notify us of any necessary corrections at:
